Town Clerk

State Election November 4, 1930.

At a legal meeting of the inhabitants of the Town of Hull qualified to vote in elections, called under a warrant issued by the Selectmen and dated October 22, A. D. 1930 held in the Auditorium of the Fire and Police Station Building situated on Atlantic Avenue in said Hull on Tuesday the fourth day of November, 1930 at six-thirty o'clock in the morning.

To give in their votes for the election of a Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Senator in Congress, Congressman, Councillor, Senator, Representative in General Court, District Attorney, Register of Probate and Insolvency, County Commissioner, two Associate Commissioners, and County Treasurer.

To give in their votes "Yes" or "No" on the Acceptance of the following "Proposed Amendment to the Constitution."

Question No. 1

Article XXI of the articles of amendment is hereby annulled and the following is adopted in place thereof:

Article XXI. In the year nineteen hundred and thirty-five and every tenth year thereafter a census of the inhabitants of each city and town shall be taken and a special enumeration shall be made of the legal voters therein. Said special enumeration shall also specify the number of legal voters residing in each precinct of each town containing twelve thousand or more inhabitants according to said census and in each ward of each city. Each special enumeration shall be the basis for determining the representative districts for the ten year period beginning with the first Wednesday in the fourth January following said special enumeration: provided, that such districts as established in the year nineteen hundred and twenty-six shall continue in effect until the first Wednesday in January in the year nineteen hundred and thirty-nine.

The house of representatives shall consist of two hundred and forty members, which shall be apportioned by the general court, at its first regular session after the return of each special enumeration, to the several counties of the commonwealth, equally, as nearly as may be, according to their relative numbers of legal voters, as ascertained by said special enumeration; and the town of Cohasset, in the county of Norfolk, shall, for this purpose, as well as in the formation of districts as hereinafter provided, be considered a part of the county of Plymouth; and it shall be the duty of the secretary of the commonwealth to certify, as soon as may be after it is determined by the general court, the number of representatives to which each county shall be entitled, to the board authorized to divide such county into representative districts. The county commissioners or other body acting as such or in lieu thereof, such board of special commissioners in each county as may for that purpose be provided by law, shall, within thirty days after such certification by the secretary of the commonwealth or within such other period as the general court may by law provide, assemble at a shire town of their respective counties, and proceed, as soon as may be, to divide the same into representative districts of contiguous territory and assign representatives thereto, so that each representative in such county will represent an equal number of legal voters, as nearly as may be; and such districts shall be so formed that no town containing less than twelve thousand inhabitants according to said census, no precinct of any other town and no ward of a city shall be divided therefor, nor shall any district be made which shall be entitled to elect more than three representatives. The general court may by law limit the time within which judicial proceedings may be instituted calling in question any such apportionment, division or assignment. Every representative, for one year at least immediately preceding his election, shall have been an inhabitant of the district for which he is chosen, and shall cease to represent such district when he shall cease to be an inhabitant of the commonwealth. The districts in each county shall be numbered by the board creating the same, and a description of each, with the numbers thereof and the number of legal voters therein, shall be returned by the board, to the secretary of the commonwealth, the county treasurer of such county, and to the clerk of every city or town in such county, to be filed and kept in their respective offices. The manner of calling and conducting the elections for the choice of representatives, and of ascertaining their election, shall be prescribed by law.

Article XXII of the articles of amendment is hereby annulled and the following is adopted in place thereof:

Article XXII. Each special enumeration of legal voters required in the preceding article of amendment shall likewise be the basis for determining the senatorial districts and also the councillor districts for the ten year period beginning with the first Wednesday in the fourth January following such enumeration; provided, that such districts as established in the year nineteen hundred and twenty-six shall continue in effect until the first Wednesday in January in the year nineteen hundred and thirty-nine. The senate shall consist of forty members. The general court shall, at its first regular session after the return of each special enumeration, divide the commonwealth into forty districts of contiguous territory, each district to contain, as nearly as may be an equal number of legal voters, according to said special enumeration; provided, however, that no town or ward of a city shall be divided therefor; and such districts shall be formed, as nearly as may be, without uniting two counties, or parts of two or more counties, into one district.

The general court may by law limit the time within which judicial proceedings may be instituted calling in question such division. Each district shall elect one senator, who shall have been an inhabitant of this commonwealth five years at least immediately preceding his election, and at the time of his election shall be an inhabitant of the district for which he is chosen; and he shall cease to represent such senatorial district when he shall cease to be an inhabitant of the commonwealth.

That chiropractic be "the science or practice of locating and adjusting by hand the malpositions of the articulations of the human spine."

That any person, with one preceding year's residence in this Commonwealth and with degree from a qualified chiropractic school received at least one year prior to the date when this law takes effect, may, within ninety days after such date, be certified by the board at its discretion without examination.

That otherwise no person, except a member of the board of registration, shall practice chiropractic unless, being over twenty-one years of age, of good moral character and graduated from a reputable chiropractic school after personally attending courses of at least twenty-two hundred sixty-minute daylight hours given to persons qualified to graduate from a public high school, he shall qualify by examination, pay a fee of twenty-five dollars and be registered and certified; except that any person licensed in another State maintaining standards equal to those of this Commonwealth may be registered without examination.

That the examination be scientific and practical in character, in subjects including anatomy, physiology, symptomatology, hygiene, sanitation, chemistry, histology, pathology, chiropractic analysis, and the principles and practice of chiropractic.

That the board may, after hearing, revoke a certificate for cause.

That the board shall make an annual report and shall keep public records of its proceedings and of the names of persons examined or registered by it and of the names and addresses of all registered chiropractors, who shall pay an annual license fee, promptly notify the board of any change in address and furnish such other information as the board may require.

Question No. 2.

Law Proposed by Initiative Petition.

Shall the proposed law which provides for an additional method of nominating candidates for nomination, at the state primaries in September, by members of political parties, for those offices to be filled by all the voters of the Commonwealth at a state election.

It provides that the state conventions of the political parties, in each state election year, shall be held before and not after the state primaries, as now, namely, not later than June 15. In order to elect delegates to such party conventions, party primaries are established to be held on the last Tuesday in April. Among other things, these state conventions may endorse candidates for offices to be filled by all the voters and to be voted upon at the state primaries. Such endorsement places a candidate in nomination, at such state primaries, without the necessity of filing nomination papers. The name of the endorsed candidate is to be placed first on the ballot and against his name is to be placed the words "Endorsed by (the name of political party) convention" in addition to the eight-word statement now authorized by law. Candidates endorsed by a party convention may accept said endorsement within ten days, and having so accepted may not withdraw.

It also provides for the election of district members of state committees and members of ward and town committees at the proposed party primaries in April, as well as delegates to the state party conventions, instead of at the state primaries in September, as now.

It also provides for the election of delegates to national conventions (to nominate candidates for President) at the proposed party primaries instead of at the primaries, now specially held for that purpose, and which existing law requires to be held on the last Tuesday in April (the same day proposed for the proposed party primaries).

It also provides for certain other new provisions of law and certain changes in existing laws, relating to holding state conventions and party primaries, the number and election of delegates to state conventions, the number of members at large of a state committee, and other matters, which in more detail chiefly are as follows:

State conventions are to be composed solely of delegates elected at the party primaries, and the number is to be one from each ward and town and one additional for every fifteen hundred votes or major fraction thereof above the first fifteen hundred votes cast at the preceding state election in such ward or town for the political party candidate for Governor, instead of a number now fixed by the state committee of each party (not less than one from each ward or town) and certain members designated by existing law.

The time, for notice to the State Secretary by aldermen or selectmen of their determination to hold primaries by wards, precincts or groups of precincts, to be March 1, instead of August 1, as now.

The names of candidates for election for delegates to a state convention and for district members of a state committee to be arranged individually by alphabet instead of in groups arranged by lot, as now.

Vacancies in the office of delegate to a state or national convention not to be filled except in case of a tie vote, and then by delegates from the same district, within ten days, and if no other delegate or if not so filled, then by a state committee, rather than solely by the remaining members of the delegation; and statement of filling of such vacancy to be filed with the State Secretary.

Seating of delegates at state conventions to be in groups by senatorial districts, and order of business at said conventions defined.

Voting on candidates, by a convention, to be by roll call, if more than one candidate for the office, or by groups of delegates unless any member of such group objects.

The number of members at large of a state committee of a political party to be fixed by the state convention of a party instead of by the state committee, as now.

The existing provisions as to preparation and filing of nomination papers, objections to nominations, preparation, number, substance, arrangement and form of ballots, hours during which polls shall be open, opening of ballot boxes, canvass and return of votes, return and certification of votes, now applicable to state primaries to be applicable to the proposed party primaries.

The power of a state committee to fix the number of district delegates to a national convention to be continued, but the date, of giving notice to the State Secretary, of such fixation to be March 1, instead of on or before the third Wednesday in March, as now.

The power of city and town committees to fix the number of members of ward and town committees to be continued, but the date, of giving notice to the State Secretary, of such fixation to be March 1 instead of August 1, as now, which was approved in the Senate by a vote of 21 in the affirmative and 17 in the negative and was disapproved in the House of Representatives by a vote of 62 in the affirmative and 138 in the negative, be approved?

Is it desirable that the proposed amendment to the Constitution of the United States,--

"Article--

"SECTION 1. The terms of the President and Vice President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3d day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

"SEC. 4. The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice-President whenever the right of choice shall have devolved upon them.

"SEC. 5. Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this article.

It is further resolved that the appointees to the aforementioned board of trustees shall not be employees of the Nantasket-Boston Steamboat Company, nor stockholders of any stock in the said company.

Joseph M. Brest
Voter of the Town of Hull

Article 2. Will the Town vote to rescind its action under Article 6, of the Special Meeting held August 18, 1939, whereby it voted under the authority of Chapter 53, Sections 117 to 121, inclusive, to regulate the time and method of conducting a Town Caucus as accepted and adopted by the Town under Article 16, of the Annual Meeting held March 11, 1939?

WHEREAS: It is the belief of the majority that our citizens now understand the purpose and intent of the caucus.

BE IT RESOLVED: That it is the sense of this meeting that the Town Clerk be requested in the preparation of the Town Official Ballot, to make every effort consistent with law to plainly indicate to the voters which candidates are the Caucus Nominees and to firmly guard against any attempt by any other candidates to fool the voters into believing that they are other than those who have disregarded the caucus and the will of the Town, or are defeated candidates who can not accept the verdict of the voters.

RECOUNT OF VOTES CAST FOR ASSESSOR
IN TOWN CAUCUS HELD FEBRUARY 6, 1940

Upon petition by Ross J. Lertora and others, addressed to the Officials of the 1940 Caucus and to the Town Clerk, who is now by law the Official who is holding the ballots cast in the Hull Caucus held on the sixth day of February 1940, that they believe that there may have been errors in the count of the ballots, or in the recording of same whereby ballots that should have been credited to Charles F. Fitzpatrick were by mistake credited to some other candidate.

Another petition was received signed by Carlton H. O'Donnell and others, stating that they believe the records and returns of the Caucus Officers in the nominations made February 6, 1940, are in error in that James W. Douglas, 7 Gallops Hill Road, received too few votes and other eight candidates received too many votes.

The Registrars, after due notice to candidates who may be affected by a recount held a recount of votes cast to nominate candidates at above mentioned Caucus on Tuesday, February 12, 1940, in the Guard Room of the Police and Fire Station Building, with the following results:

The following Resolution was offered by John Allen Smith and read by Frederick E. Cox:

RESOLUTION: Presented by John A. Smith, Annual Town Meeting 1940, Hull, Mass.:

MR. MODERATOR:

With a definite conviction that our town needs more and larger private business enterprises, than we now enjoy, to provide a stability of employment for the citizens of Hull I present the following resolution:

BE IT RESOLVED:

That Hull presents to the business man or organization an opportunity to locate here that has many valuable assets and would be of definite advantage to all concerned.

Hull, with its unsurpassed transportation facilities by water, its streets and thoroughfares more than adequate for trucks, busses or trailer service, its proximity to large cities that makes for a ready market, its areas of suitable land for the construction of buildings and working plants, its supply of available skilled and unskilled help combined with a sincere desire for whole-hearted cooperation, this town is in more ways than one ideal for some business to investigate as a site for a successful manufacturing or similar business:

AND BE IT FURTHER RESOLVED:

That the Moderator appoint a committee of eleven registered voters of Hull, to include the planning board, to study this problem and try to develop the idea incorporated in the first paragraph of this resolution and to report their progress to future special or regular town meetings.

Fortunate as we are in providing employment for many of our residents during some months on municipal projects we must face facts. Such employment cannot last forever. Hull needs new business enterprises at once. Let's follow the splendid example of the Towns of Ware and Hudson, Massachusetts, who by intelligent, sincere planning and whole hearted cooperation between all groups of residents made their towns better places in which to live in a very substantial way, that is, by providing means of employment in private industry, that at the solicitation of the residents of these towns established new industry in Ware or Hudson.

The following resolution offered by Carlton O'Donnell was adopted, March 8, 1941.

Mr. Moderator:-

On behalf of over 800 petitioners for a bus service to Quincy, and also on behalf of the regular commuters between Hull, Quincy and Boston, I present the following Resolution:

WHEREAS:

The Town of Hull has real estate assessed for \$16,078,175, not over 20% of the houses and cottages are occupied during 9 months of the year. We have a population of about 4000 during the winter months, and from 30,000 to 40,000 during June, July and August;

WHEREAS:

The Town of Hingham has a population of about 7000, and at present several housing projects are in course of construction;

WHEREAS:

Fort Revere at the North end of Hull has several hundred soldiers stationed there, and also a large number land at Pemberton from adjacent island forts;

WHEREAS:

At this time, 161 workers at the Fore River plant of the Bethlehem Steel Company, Quincy, reside in Hull and Hingham, and the number is increasing from week to week;

WHEREAS:

The only way to commute to Quincy or Boston is by the Hull-Nantasket bus to Hingham, then by train. No trains operate Sundays and holidays;

WHEREAS:

Hull has no department stores, clothing stores, furniture stores or moving picture theaters; our purchases must be made either in Quincy or Boston. When the family automobile has taken the worker of the family to his place of employment, the purchase of household goods or a visit to a place of amusement is a problem;

WHEREAS:

The Eastern Mass. Railway Co.; through their attorney and other officials, refuses to extend their service to either Hull or Hingham, except during the summer months- when they operate 18 busses weekdays and 32 or more Saturdays, Sundays and holidays to the Amusement Section of Hull;

AND WHEREAS:

The Eastern Mass. Railway Co., through their attorney and other officials, opposed a petition signed by 800 citizens of Hull and presented to the Quincy City Council, to the effect that the Hull & Nantasket Transportation Co. busses be allowed to discharge and take on passengers at Quincy Square.

Representatives of the Quincy Chamber of Commerce, the Fore River Plant, the Lincoln Stores and others appeared in favor of the petition. The decision of the Quincy City Council, however, was "leave to withdraw";

THEREFORE, BE IT RESOLVED:

That the citizens of Hull in town meeting assembled respectfully request that the Quincy City Council reconsider our petition as many weird assertions

were made at the hearing that the petitioners could not repudiate under the rules of the Council as there was no rebuttal, and no rebuttal, and no direct questions could be asked the speakers in opposition, representing the Eastern Mass. Railway Co.;

AND BE IT FURTHER RESOLVED:

That in view of the fact that not only the transportation of men in the U. S. Army, stationed at our forts, to and from their homes, and also the transportation of the workers that will occupy the housing projects now in progress at Hingham, or the hundreds of unoccupied furnished houses in Hull, this problem must be closely allied with national defense;

THEREFORE, BE IT RESOLVED:-

That copies of this resolution be mailed to the Quincy City Council, the National Defense Council, the Mass. National Defense Committee, the Quincy Chamber of Commerce, the Fore River Plant of the Bethlehem Steel Corp., and other interested parties.

Respectfully submitted,

Hull Committee on Passenger Service.

The following resolution presented by Frederick E. Cox was unanimously adopted:

The Town of Hull is recognized in Massachusetts, in particular, and the United States, in general, as a progressive, well governed and "smart" town. Its sons and daughters praise it, to those who do not know of our town, whenever the opportunity is presented. But in one respect our town is still in the antique stage and that pertains to the manner of election of town officers and the time of the town meeting at which the annual appropriations are made. Practically every other town of like size and caliber hold the election of town officers following the business meeting of the town. Hull does not. The same towns hold the business sessions of the town meetings in the evening rather than the afternoon thereby affording those who have to work a full day an opportunity to attend the business meeting and have an opportunity to express their thoughts on the all important affairs of town government.

Therefore, be it resolved at this town meeting assembled this tenth day of March, 1945 that the Moderator be empowered to appoint a committee of five registered voters of the Town of Hull to study and report to the next special or annual town meeting the feasibility of changing the by-laws of the town whereby the election of town officers would be held on a date after the annual business meeting and further that the time of the annual business meeting be placed in the evening instead of the afternoon, and such other recommendations as to time of holding annual meeting.

Question No. 1.

LAW PROPOSED BY INITIATIVE PETITION

Shall this measure, which by amendments of the General Laws (Ter. Ed.), provides for payment by the Commonwealth of adequate pensions to deserving citizens sixty-five years of age or over in need of relief or support, who shall have resided in the Commonwealth not less than five years immediately preceding the date of application for such pension, and who shall have resided in the Commonwealth continuously for one year immediately preceding said date of application, which is further described as follows:-

The measure, by amendments of General Laws (Ter. Ed.), c. 6, provides for an old age pension commission of three persons, one to be a qualified physician, another to be an attorney at law and a third to be a non-professional person, who are to be appointed and may be removed for cause by the Governor with the advice and consent of the Council, and are to serve under the Governor and Council. Not more than two members of said Commission shall be members of the same political party. Original appointments of members shall be for one, two and three years respectively, and thereafter appointments are to be for three years. Such members are to devote their whole time to the work of the Commission during business hours and be engaged in no other business, occupation or profession. One of their number is to be designated as chairman by the Governor and shall receive a salary of \$6,000, and each other member \$5,500 per year, with their necessary expenses. The commission is empowered to make and enforce rules and regulations as it may deem necessary in the performance of its duties and as may be approved by the Governor and Council.

The measure strikes out chapter 118A of the General Laws (Ter. Ed.) and inserts in its place a new chapter entitled "Adequate pensions for certain aged citizens."

It is provided that pensions hereunder shall be paid from the date of application therefor, but in no event before the applicant reaches the age of sixty-five. The Commission shall render a decision in not less than thirty days from the date of application for a pension or a request for an increase of the amount thereof. Such pension shall, wherever

practicable, be paid to the aged person in his own home or in lodgings or in a boarding home, which for the purposes hereof shall include any institution providing shelter, care and treatment for aged persons which is not supported in whole or in part by public funds; provided, that no inmate of such a boarding home or institution shall be eligible for a pension under this chapter while being cared for under a contract. Such pension shall be paid by check or in cash which shall be delivered to the pensioner at his residence, if he so requests, and shall be paid semi-monthly unless the pensioner prefers less frequent payments. Such pension shall be on the basis of need and the amount thereof shall be determined in accordance with budgetary standards established by the Commission. Budgetary standards shall be such as to enable an individual pensioner to maintain a standard of living compatible with decency and health. Such pensions, except as hereinafter provided, shall be at the rate of not less than \$48.00 monthly. The pensioner's budget at such times as may be required shall include medical care, if recommended by a recognized physician, eye-glasses, if recommended by a recognized optician, dental care and false teeth, if recommended by a recognized dentist.

In computing the pensioner's payment under this chapter, the Commission shall deduct from the pensioner's budget or the minimum payment, whichever is greater, the amount of income the person paid or to be paid a pension hereunder may be receiving from any source. and may deduct therefrom such reasonable amount as may be deemed to represent the financial value of board, lodging or other assistance which is being furnished to such persons from any source.

Upon the death of a person drawing a pension, whose funeral cost does not exceed the sum of two hundred and fifty dollars and in whose estate there are insufficient assets to cover the full cost of the funeral, the Commission shall pay to the funeral director the difference between the assets and the cost of the funeral, a sum not exceeding one hundred and twenty-five dollars.

Expenses for medical, hospital and other services rendered to a pensioner, which remain unpaid at the time of his death or commitment to an institution as an insane person, shall be paid directly to the person rendering such services.

No pension under this chapter shall be discontinued nor shall the amount thereof be decreased until the expiration of fifteen days after notice has been given by the Commission to the pensioner.

Provision is made by which a person receiving a pension may be absent from the Commonwealth on a visit without having such pension suspended.

It is provided that General Laws (Ter. Ed.), c. 273, s 20, which relates to the support of parents by children, shall not apply when parents are eligible to receive a pension.

Provision is made that there shall be set up in the Commission a subdivision of appeals under the jurisdiction of a supervisor of appeals. Any person aggrieved by the failure of the Commission to pay an adequate pension under this chapter, or by the failure of the Commission to approve or reject an application for a pension or a request for an increase in the amount thereof, within thirty days after receiving such application or request, shall have a right to a fair hearing, after due notice, upon appeal to the subdivision of appeals in the form and manner prescribed by the commission; provided that such appeal is received by the subdivision of appeals within sixty days after official notice of the action taken by the Old Age Pension Commission has been received by the applicant or pensioner. The decision of the subdivision of appeals shall be final and binding upon the Commission.

The Commission or any interested person aggrieved by any decision in any proceeding before the subdivision of appeals may obtain judicial review of such decision by filing, within twenty days of the date of mailing of such decision, a petition for review thereof in the district court within the judicial district wherein the pensioner or the applicant for a pension lives.

In any proceeding for review the findings of the subdivision of appeals as to facts shall be conclusive, such proceedings shall be heard in a summary manner and given precedence over all other civil cases. From the decision of a district court upon review an appeal may be taken to the Supreme Judicial Court.

The possession by an applicant for pension under this chapter of assets consisting of cash, active securities or inactive securities, or any combination of such assets, shall not disqualify him from receiving such pension; provided, that the total of such assets, figuring the present cash value of such inactive securities at the sum determined by the Old Age Pension Commission, does not exceed the sum of \$300.

A person is not to be disqualified from receiving a pension because of the ownership of an equity in vacant land from which there is insufficient income to provide for his budgetary needs or minimum payments, or the ownership of an equity in real estate by an applicant who resides thereon or who, in the opinion of the Commission is residing elsewhere because of physical or mental incapacity, provided that if such equity on the basis of assessed valuation exceeds an average of \$3,000 during the five years immediately preceding application for the pension, the applicant shall execute a bond in the penal sum for the amount of the equity in excess of \$3,000 conditioned on repayment to the Commonwealth of all amounts paid as such pension without interest, such bond to be secured by a mortgage on the applicant's real estate. Provision is made for the recording of such bond and mortgage without a fee and the apportionment of the proceeds realized from any of them between the Federal Government and the Commonwealth.

A person is not to be disqualified from receiving a pension by reason of the ownership of a policy of group insurance or of a policy of insurance in an amount not exceeding \$1,000, or of a policy of insurance in an amount not exceeding \$3,000, having

a cash surrender value not in excess of \$1,000, if such policy has been in effect not less than fifteen years.

No pension shall be granted to an applicant who at any time within five years immediately prior to the filing of an application for such pension has made an assignment or transfer of property so as to render himself eligible to such pension. No pension shall be subject to trustee process or assignment, and no applicant for a pension, who knowingly makes any false statement or perpetrates any fraud or deception in relation to his application, shall be granted any pension nor be eligible for one during one year thereafter. A person, his executor or administrator shall be liable in contract to the Commonwealth for expenses incurred by it for a pension paid to such person under this chapter if such person or his estate is in possession of funds not otherwise exempted thereunder.

If an application for a pension under this chapter is effected by the eligibility of the applicant to receive aid under General Laws (Ter. Ed.) c. 115, which relates to State and Military Aid and Soldiers' Relief, the applicant shall be entitled to exercise such options and execute such waivers as may be necessary to receive the pension which he seeks.

All cities and towns in the Commonwealth shall furnish suitable headquarters for the carrying out of the duties of the commission in such cities and towns.

The measure further provides that there shall be established and set up on the books of the Commonwealth a separate fund, to be known as the Old Age Pension Fund, consisting of receipts credited to said fund under General Laws (Ter. Ed.) c. 64B, G.L. (Ter. Ed.) c. 128A s 15, as amended, G.L. (Ter. Ed.) c. 138, s 27, as amended, and all proceeds of taxes assessed under Acts of 1941, c. 729, as 9 and 9A.

The Old Age Assistance Fund as in force immediately prior to the effective date of this act is hereby continued in existence, but shall hereafter be entitled "The Old Age Pension Fund."

It is provided that all civil service employees in the Department of Public Welfare of the Commonwealth, including the supervisor, referees and employees of the subdivision of appeals in said department or of any city or town, employed in the administration of the Old Age Assistance Law on the effective date of this proposed measure, shall be transferred to the service of the Old Age Pension Commission, retaining their present civil service seniority retirement rights and any step increases from the minimum pay of their grade earned during their service with said department of said bureaus.

It is provided that all records and property used in the administration of the Old Age Assistance Law and which are the property of the Commonwealth are to be transferred to the Old Age Pension Commission.

This act shall take effect on March first, nineteen hundred and forty-seven, - which proposed law was approved in the House of Representatives by a vote of 125 in the affirmative and 79 in the negative, and on which the Senate did not vote---be approved?
